

IMPLEMENTING GDPR – GENERAL DATA PROTECTION REGULATION

With our IT and legal experts specialized in security and personal data protection.

Our expert team will assist you in the analysis, organization, and implementation of all necessary adjustments to ensure timely compliance with the new regulation. Every company or organization that processes data of EU citizens in any way will be required to adhere to GDPR rules, even if their headquarters are located outside the EU territory. GDPR came into effect on May 25, 2018, when regulatory enforcement became mandatory. Penalties in case of personal data breaches can range up to 4% of global annual revenue or 20 million euros.
